Thanks Robert,

Also note the information in the other appendices of this comment letter which do specifically state what methods should have been used by Rosemont's consultants and lays out a recommended plan of study for Davidson Canyon.

Thanks Evan,

This is very helpful.

Best,

Rob

Subject: Rainfall

Hello Robert,

It appears that the concerns about annual rainfall depth are best summarized in the comments regarding the APP from 2012 in *Appendix B – Specific Concerns about Rosemont’s Hydrologic Inputs*.
